

DocuSign®

Paperless solutions with DocuSign.

Paper-based processes are costly and inefficient.

\$80

Savings in paper alone

On average, paper costs \$80 per year per employee, and that doesn't factor in the cost of ink, printers, and maintenance.¹

71%

Stand for social justice

71% of consumers state the importance for businesses to take a stand on social movements as Gen Z will account for 40% of all consumers globally by 2020.²

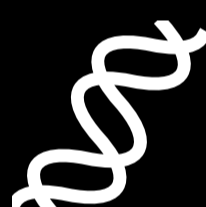

\$25B+

Spent filing

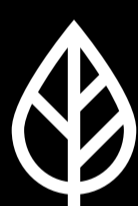

\$25–35 billion is spent annually in the US on retrieving, storing, and filing paper.³

Going digital helps protect the environment and increases productivity.

Demand change

Be a pioneer of change and create the opportunity for a sustainable future.

Conserve resources

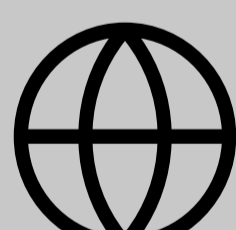

Go paperless with DocuSign and help digitally drive environmental sustainability.

Modernize processes

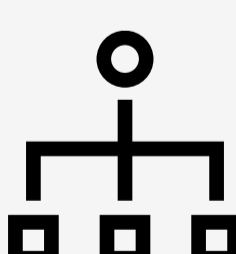

Provide a fast, secure, easy-to-use electronic document signing process.

Make an impact today with the DocuSign eSignature solution.

Save precious resources

DocuSign has saved 837 tons of paper or approximately 14,320 trees.

Transform processes

Significantly reducing reliance on traditional methods of communication, DocuSign has transformed the way documents are stored, shared, and signed.

A million and counting

DocuSign customers have saved one million square feet of forest by replacing paper-based processes with digital transactions.
