

DocuSign **Intelligent Insights** powered by Seal Software

Drive smarter business decisions with insight into your agreements across the enterprise.

As your business grows, so does the complexity of managing your agreements. Without an efficient way to oversee the multitudes of documents scattered across your enterprise, you may be taking on unnecessary risk and have limited metrics for optimizing business practices. When you add in the inevitable ad hoc or legal review, your problem becomes painfully clear — with each request comes weeks to months of tedious, manual investigation.

DocuSign Intelligent Insights gives 360-degree visibility into agreements to help you uncover organizational risks, obligations and opportunities.

- Dramatically accelerate review times from months to days
- Increase the accuracy and breadth of reviews
- Bring non-standard and rogue agreements back under control
- Reduce the risk of non-compliance with regulatory requirements and changing corporate standards
- Gain actionable insights for business processes improvements

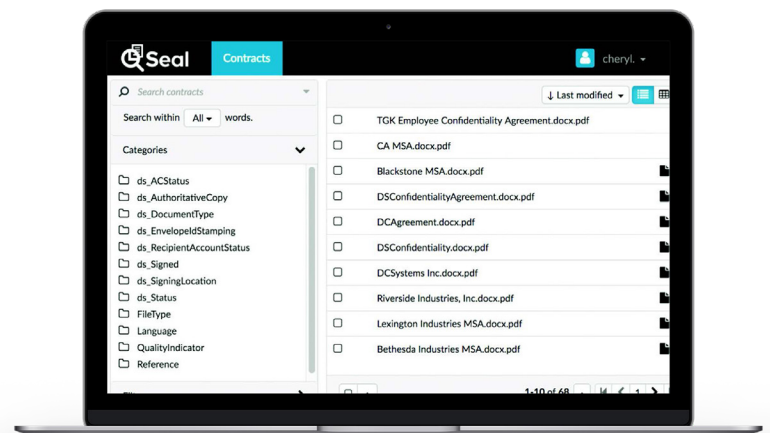

Machine learning for a smarter and faster system of agreement

DocuSign has partnered with Seal Software to incorporate the industry's foremost AI-powered contract analytics capabilities — dramatically improving the speed, accuracy and volume of your analysis. Intelligent Insights pulls in agreements from anywhere and then helps you filter down to the ones that matter. Advanced search and extraction policies identify the clauses

you need to review. You can easily build side-by-side comparisons to quickly drill down on inconsistencies and opportunities. Plus, the system employs narrow focus AI so that subsequent extractions get smarter as you go.

Use Cases

Procurement and Sourcing
M&A / Strategic Restructuring
Governance, Risk and Compliance
