DocuSign®

Improve employee management

With DocuSign for HR, make your day-to-day about developing people, not managing paperwork.

62%
### Think paperwork lessens productivity
62% of HR professionals agree that document management contributes to lost productivity.[1]

41%
Spend too much time chasing documents
41% of HR leaders spend more than 25% of their time chasing documents.[1]
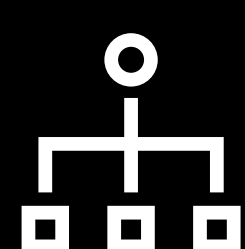

3 million
Quit their jobs monthly
Around 3 million Americans leave their jobs every month voluntarily.[2]

Streamline everything—from performance evaluations and policy updates to role changes.

Eliminate manual paperwork
Send digital documents to employees for their e-signatures in a matter of seconds and watch as your HRIS updates automatically.

Improve document trails
Store all completed and updated employee documents in one central database, making them easy to locate, access, and search.

### Increase employee satisfaction
Retain more employees by eliminating excessive paperwork with digital solutions that streamline important requests, such as updating benefit selections.

With DocuSign for HR, boost employee retention with a digital approach to documents.

Award-winning API
Connect and extend your solutions with over 1,000 API integrations.

Greatest innovations
Reap the rewards from the first provider with 750+ product innovations delivered via eSignature.

Tailored to your role
Get a solution tailored specifically to your industry or department.
